Past performance is not a guide to future performance.

Verbatim Income Monthly Market Commentary - October 2025

The main driver of market sentiment in October was US-China trade tensions. The mood among investors improved after trade talks between the two countries. US inflation continued to ease, and the Federal Reserve cut interest rates by a further 0.25%.

Against this backdrop, growth stocks continued to perform best. They were bolstered by renewed enthusiasm for stocks linked to artificial intelligence (AI). In Japan, the election of a new prime minister was viewed positively by markets, and Japanese equities performed well.

The value of industrial and precious metals surged over the month, while gold extended the positive performance it has delivered so far this year.

Fund Objective

The Fund will use a broadly cautious balanced investment strategy with the aim of achieving income with some potential for capital growth over the medium to longer term.

Investment Strategy

WS Verbatim Portfolio 5 Income Fund will invest in a diversified portfolio of global equity shares and will also gain exposure to the UK Corporate Bond sector through investment in a unitised vehicle. The equity part of the portfolio will have a bias towards stocks generating a high and sustainable income with the aim of achieving a total return over the medium to longer term. As this is an income based fund, the asset allocation will vary to yield the best risk adjusted income. However, this will operate to a risk rating of 5 with a target volatility of 11.00%.

Change of Circumstances

If you feel that this profile no longer matches your investment objectives, or if your circumstances are likely to change, you should contact your adviser.

Fund Important Note

Please be aware that adjustments to previously reported data can occur. The value of investments and the income from them can fluctuate and it is possible that investors may not get back the amount invested. All model returns are calculated in £-Sterling and include DFM fee and fund charges, but do not include investment platform and adviser charges. NOTE: All benchmark returns are calculated in £-Sterling and include DFM fees, fund and investment platform charges but do not include adviser charges.

Data Definitions

Inception: The date at which the fund was first managed. This can be found at the top left corner of the investment growth graph.

Ongoing Charges to the Funds (OCF) is made up of the Annual Management Charge and additional expenses. Additional expenses may be deducted from some funds. These may include, third party administration, trustee, registrar, auditor and regulator fees. As the additional expenses relate to the expenses incurred during the fund management process, they will regularly increase and decrease as a percentage of the fund.

Transaction Cost is the estimated charge for the fund that may be incurred as a result of the acquisition and disposal of investments. The charge is forward looking and used for pre sale reporting.

12 Month Yield: Is the sum of a fund's total trailing 12-month interest and dividend payments divided by the last month's ending share price (NAV) plus any capital gains distributed over the same period.
